

DEEPANSH MAHESHWARI

Data Analyst

+91 9521400703 @ deepansh048@gmail.com LinkedIn Portfolio

SUMMARY

I am a Data Analyst with growing expertise in data analysis tools like Excel, SQL, and Python. With a passion for problem-solving and converting raw data into actionable insights, I am eager to leverage my technical knowledge and analytical thinking to support data-driven decision-making within a dynamic environment.

KEY SKILLS

Data Analysis & ETL

- Microsoft Excel
- Power Query
- Power Pivot
- Data Cleaning
- Advance Formulas
- Data Transformation
- Trend Analysis
- Python
- Numpy
- Pandas
- Numpy
- Plotly
- Beautiful Soup
- yfinance
- SQL
- Power BI
- IBM Cognos Analytics
- Excel DashBoard
- HTML5
- Web Scraping
- Problem Solving
- Visual Studio Code
- Git
- GitHub
- Cursor
- Jupyter
- Pycharm
- Adaptable/Fast Learner

WORK EXPERIENCE

Internship (Data Analyst)

VCREATEK CONSULTING SERVICES PVT LTD

Pune, MH

Data Analyst internship

- Engineered automated ETL workflows to process and clean messy procurement data, utilizing Power Query and Python to eliminate redundancies and ensure data integrity.
- Tracked and analyzed key performance metrics, translating raw operational data into clear, actionable insights to support data-driven decision-making.
- Leveraged SQL and advanced Excel formulas to query databases, perform trend analyses, and build reliable models for business reporting.
- Created a comprehensive, structured data analytics and technical development roadmap with learning resources to guide internal team upskilling.

Supervisor (Transport & Logistics)

Shree Ji Road Lines

Pune, MH

Logistics supervision role

- Managed daily logistics operations, including inventory records, billing documentation, and shipment coordination.
- Maintained and organised large volumes of operational data such as E-way bills, challans, and payment records.
- Monitored business processes, vendor coordination, and financial tracking to ensure smooth operational flow

PROJECTS

Automated Financial Data Pipeline & Interactive Dashboard

Automated Financial Data Pipeline & Interactive Dashboard

- Designed and implemented an end-to-end financial data analytics pipeline using Python to extract, clean, and visualise stock market and corporate revenue data for Tesla and GameStop.
- Used web scraping techniques with yFinance, BeautifulSoup, and Requests to collect structured and unstructured financial datasets.
- Performed data cleaning and transformation using Pandas, including regex-based currency formatting cleanup, null handling, and time-series alignment for analytical accuracy.
- Developed interactive visual dashboards using Plotly/Matplotlib to analyse historical stock performance and quarterly revenue trends.

PROJECTS

Procurement Data Analysis & Business Reporting

Procurement Data Analysis & Business Reporting Project

- Worked on Excel-based data analysis projects focused on procurement, vendor performance, and operational reporting
- Data cleaning, transformation, KPI tracking, and trend analysis using formulas, Pivot Tables, and Power Query
- Developed analytical problem-solving skills through real-world business datasets and reporting scenarios

EDUCATION

Master of Computer Applications (MCA)

Chandigarh University

04/2025 - Present Chandigarh

Bachelor of Computer Applications (BCA)

University of Kota

04/2/22 - 08/2025 Kota
